

Hace muchísimos años

Érase una vez un gran castillo. Con valientes caballeros, caballos, reyes, reinas y torneos. Y muchas aventuras todos los días.

Así comenzaba la descripción del ahora emblemático set Castle (375) en el catálogo de productos LEGO® cuando se lanzó al mercado en 1978. Frecuentemente referido hoy día como *el castillo amarillo* o *el castillo original*, marcó el comienzo de una entrañable aventura medieval que continuaría sin interrupción hasta 1999. Como parte de las celebraciones por el 90 aniversario de LEGO, elegimos rendir un homenaje a este popular tema con el nuevo modelo Castillo de los Caballeros del León, inspirado en el clásico set King's Castle (6080) de 1984.

375 Castle

¡El castillo original con el que todo comenzó! Los llamativos muros amarillos de este castillo estaban articulados con el fin de crear múltiples configuraciones y acceder al interior para jugar con facilidad. Si bien el tono amarillo pronto cayó en desuso en favor de un gris más realista, el diseño con muros articulados aún puede verse en los castillos LEGO de nuestros días.
Algunas de las peculiaridades de este modelo son los caballos para construir con ladrillos y el clásico casco espacial modificado con una visera para los caballeros.

6080 King's Castle

6074 Black Falcon's Fortress

6066 Camouflaged Outpost

¡El escondite secreto original de los pobladores del bosque! Un antiguo roble envuelve con sus raíces una enorme roca, ¡pero hay mucho más de lo que se ve a primera vista! Una puerta giratoria oculta hecha de roca da acceso a la cueva de los habitantes del bosque y una parte posterior articulada revela el espacio interior para jugar. Este set contenía un total de 6 habitantes del bosque, incluido su enigmático líder.

6086 Black Knight's Castle

¡La máxima expresión de los castillos clásicos! Esta impresionante fortaleza está construida sobre una base elevada, lo que permite que existan unas mazmorras bajo el patio. El castillo siguió la tradición de contar con un puente levadizo y un rastrillo que funcionaban de verdad, además de incluir una puerta posterior secreta para escapadas rápidas o aventuras a medianoche. El imponente Black Knight's Castle fue el hogar de 4 caballeros armados y montados a caballo, 6 soldados, un bandolero Wolfpack, ¡e incluso un fantasma!

10193 Medieval Market Village

Medieval Market Village es uno de los pocos sets que nos muestran la vida más allá de los muros del castillo. Cuenta con dos edificios rústicos de entramado hermosamente detallados, una rueda hidráulica para impulsar el martillo de forja, soldados, establos, un carro tirado por caballos, ¡e incluso un par de vacas!

Un nuevo castillo clásico

Siempre es un desafío reinventar un tema LEGO® tan admirado, pero el nuevo Castillo de los Caballeros del León mezcla lo más complejo de la construcción con LEGO y el espíritu de sets originales como King's Castle (6080) para crear un modelo repleto de características y funciones divertidas.

Comenzamos colocando la torre principal en la parte superior de una formación rocosa LEGO, de manera que el modelo pareciera más alto. Esto también hizo posible incluir habitaciones ocultas y oscuras mazmorras bajo el castillo. Los muros son móviles, y el modelo se puede separar para ofrecer un mejor acceso al castillo y revelar un sinfín de trampillas, pasadizos secretos y escondites ocultos.

2022

Esta nueva versión de un castillo clásico aprovecha las técnicas modernas de construcción e incluye montones de características que rinden homenaje a los sets Castle originales de años atrás.

LEGO YELLOW CASTLE, **1978**

Para celebrar 90 años de creatividad con LEGO en 2022, pedimos a los fans que votaran por los temas LEGO clásicos que más deseaban revivir en un set especial de aniversario. Decenas de miles de fans participaron en la encuesta, ¡y el tema Classic Castle fue uno de los indiscutibles ganadores!

Impresiones del equipo de diseño

Los diseñadores de LEGO® Mike Psiaki y Milan Madge siempre soñaron con trabajar juntos en un modelo de castillo LEGO de gran tamaño, ya que el castillo original fue uno de sus temas favoritos cuando eran niños. Mike describe cómo evolucionó el modelo:

Este modelo resultó de una votación realizada como parte de las celebraciones del 90 aniversario de LEGO en 2022. Nos propusimos intentar fusionar tantos sets de castillos del pasado como fuera posible en un nuevo modelo que representara el castillo supremo. Pasamos por muchas rondas de exploración para determinar la forma y el tamaño generales del castillo. Comenzamos construyendo pequeñas secciones de muros, puertas con entramado y puentes levadizos, jugando con diferentes funciones y estéticas para averiguar qué cosas funcionaban bien. En las primeras etapas, Milan descubrió un tipo de puente levadizo que utilizaba un contrapeso en la parte posterior en vez de las tradicionales cadenas conectadas a su parte frontal. Supimos de inmediato que queríamos ponerlo en algún lugar del castillo, pero no fue sino en las últimas etapas de desarrollo cuando se convirtió en la puerta principal.

Después, Ashwin Visser, diseñador gráfico de LEGO, desempeñaría una función crucial en muchos de esos pequeños pero importantes detalles que remataron el set. Entre ellos, la renovación de la imagen gráfica de los Caballeros del León, la creación de nuevos estandartes y escudos de armas para los muros y las almenas del castillo, y la incorporación de la gualdrapa (la vestimenta) en azul y rojo para los dos caballos. El toque final fue la capa totalmente nueva y el escudo de la dama del castillo.

Encuentra las diferencias

Se decidió que los Caballeros del León LEGO clásicos necesitaban renovarse un poco para estar en línea con las ediciones más recientes de los Caballeros del Halcón Negro que aparecían en el set Herrería Medieval (21325). Diseñar el nuevo escudo de los Caballeros del León representó un gran desafío, ya que el objetivo era transformar el emblemático logotipo tan amado por los fans en algo nuevo sin que dejara de ser reconocible.
